PARENT & CHILD AQUATIC PROGRAM

The purpose of this program is to provide an American Red Cross aquatic program for infants or preschoolers (6 months through 3 years) and their parent that will promote water safety practices, aquatic adjustments and swimming readiness skills. Making it "FUN" and enjoyable in the water with parental involvement. This program is intended to develop in young children a comfort level in and around the water, as well as a readiness for learning to swim. This program is NOT designed to teach children to become accomplished swimmers or even to survive in the water on their own. It will, however, provide you with the necessary knowledge and skills to orient your child to the water and to safely supervise water activities. The emphasis is on the development of a warm and trusting relationship between parents, children, and instructor. The relationship serves as the basis for learning.

LEARN –TO-SWIM PROGRAM

If you have a son or daughter in the Newfane Central School System and would like to sign up for evening swim lessons this program is for them. Enroll them in an American Red Cross "Learn to Swim Program". This program is divided into seven levels. The prerequisite for each level is successful demonstration of the skills from the preceding level, except for level 1, which has no prerequisite. Our program will offer instruction designed to help swimmers of all ages and abilities develop and refine their skills. We will have an authorized Red Cross Water Safety Instructor teach a variety of strokes, including the front crawl, back crawl, elementary backstroke, breaststroke, sidestroke, and butterfly. They will also introduce a wide range of personal safety skills and possible diving techniques. At more advanced levels, students refine skills, learn the basics of springboard diving, and discover how to incorporate swimming into a lifetime fitness program. This program will fill up quickly so sign up today to ensure a spot.
