

# Overview

---

Welcome to the Newfane Central School District Operations & Facilities page. Our District is comprised of four beautiful schools, the Senior High, Middle School, Elementary and Early Childhood Center.

The Operations and Maintenance Department is committed to the upkeep of five buildings and over 140 acres. The Department is comprised of 23 employees dedicated to the custodial, maintenance and grounds care of these buildings. Our office is located at 6273 Charlotteville Road which not only houses Operations and Maintenance, but also District Duplicating and Technology Services.

The Newfane Central School District facilities offer many opportunities for District residents to use and enjoy. The Senior High offers a hall walking (early morning 6-7 am) program during the winter months. Tennis courts are available during the summer months along with the cross country trails.

At the Middle School you will find our all-weather track open daily from April to November. A basketball court and intermediate age level playground.

The Elementary School contains our state of the art swimming pool. The pool offers many opportunities to enjoy such as family swim, water aerobics and is even available for birthday swim party rentals.

Our Early Childhood Center, or NECC as we call it, has been a model for Pre-K and Kindergarten programs. The playground is geared specifically for that age group. The NECC is also home to the District Administration Offices and the Board of Education meeting room.

As you can tell, the Newfane Central School District offers its residents plenty of opportunities to enjoy our outstanding facilities.
