**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
AND ACCEPTABLE USE PROCEDURE FOR TECHNOLOGY (Cont'd.)****Program Implementation**

The Newfane Central School District recognizes that effective use of technology is important to our students and will be essential to them as adults. Consequently, the School System will provide access to various computerized information resources through the District's computer system (DCS hereafter) consisting of software, hardware, computer networks and electronic communications systems. This may include access to electronic mail, so called "on-line services" and "Internet." The District shall provide personnel support for such usage.

The DCS is for educational and/or research use only and must be consistent with the goals and purposes of the Newfane Central School District. The standards of acceptable use as well as prohibited conduct by students accessing the DCS, as outlined in District policy and regulation, are not intended to be all-inclusive. Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. In addition to the specific standards of student conduct delineated in this policy, the general requirements of acceptable student behavior expected under the District's school conduct and discipline policies and the *Code of Conduct* also apply to student access to the DCS. Communications on the network are often public in nature. General school rules for behavior and communications apply.

Legal and ethical implications of software use will be taught to students of all levels where there is such software use as referenced in the District's Acceptable Use Procedure For Technology. In addition, the building principal or his/her designee and/or classroom teacher will be responsible for informing District students of rules and regulations governing student access to the DCS.

In order to match electronic resources as closely as possible to the approved District curriculum, District personnel will review and evaluate resources in order to offer appropriate sites or menus of materials which comply with Board guidelines governing the selection of instructional materials. In this manner, staff will provide developmentally appropriate guides to students as they make use of electronic information resources to conduct research and other studies related to the District curriculum. As much as possible, access to the District's computerized information resources will be designed in ways which point students to those which have been reviewed and evaluated prior to use. While students may be able to move beyond those resources to others which have not been evaluated by staff, students shall be provided with guidelines and lists of resources particularly suited to the learning objectives.

Authorization

Students will not be permitted to use the DCS without specific authorization from the appropriate administrator and/or instructor including potential student access to external computer networks not controlled by the Newfane Central School District.

AND ACCEPTABLE USE PROCEDURE FOR TECHNOLOGY (Cont'd.)**

Security

Security on any computer system is a high priority, especially when the system involves many users. Users of the DCS identifying a security problem on the District's system must notify the teacher in charge. A student is not to demonstrate the problem to other users. Attempts to log on to the DCS as a Network Administrator constitutes a threat to the DCS and will result in disciplining action in accordance with applicable due process procedures. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the DCS. Further, any violations regarding the use and application of the DCS shall be reported by the student to the teacher in charge.

Standards of Conduct Governing Student Access to the DCS

Inappropriate use of the DCS may result in disciplinary action, including suspension or cancellation of access. Prior to suspension or revocation of access to the DCS, students will be afforded applicable due process rights. Each student who is granted access will be responsible for that usage. The DCS is provided for students in support of their educational program and to conduct research and communicate with others. Student access to external computer networks not controlled by the District is provided to students who act in a considerate and responsible manner. Individual users of the District's computerized information resources are responsible for their behavior and communications over the District computer network. It is presumed that users will comply with District standards and adhere to the District's **Acceptable Use Procedure For Technology**.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be Newfane Central School District property and subject to control and inspection. The Network Administrator may access all such files and communications to ensure system integrity and that users are complying with the requirements of District policy and regulations regarding student access to the DCS. Students should **NOT** expect that information stored on the DCS will be private.

During school, teachers will guide students toward appropriate materials. Outside of school, parents/guardians bear responsibility for such guidance as they do with information sources such as television, telephones, movies, radio and other potentially offensive/controversial media.

Use of the DCS which violates any aspect of Newfane Central School District policy; the *Code of Conduct*; and federal, state or local laws or regulations is strictly prohibited and may result in disciplinary action in compliance with applicable District guidelines and/or federal, state and local law including, but not limited to, suspension and/or revocation of access to the DCS. In addition to the District's general requirements governing student behavior, DCS users will reference the District's **Acceptable Use Procedure For Technology** for specific guidelines. General guidelines include:

Students

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
AND ACCEPTABLE USE PROCEDURE FOR TECHNOLOGY (Cont'd.)**

- a) Using the DCS to obtain, view, download, send, print, display or otherwise gain access to or to transmit materials that are unlawful, obscene, pornographic or abusive.
- b) Use of obscene or vulgar language.
- c) Harassing, insulting or attacking others.
- d) Damaging, disabling or otherwise interfering with the operation of computers, computer systems, software or related equipment through physical action or by electronic means.
- e) Using unauthorized software on the DCS.
- f) Changing, copying, renaming, deleting, reading or otherwise accessing files or software not created by the student without express permission from the Computer Coordinator.
- g) Violating copyright law.
- h) Employing the DCS for commercial purposes, product advertisement or political lobbying.
- i) Disclosing an individual password to others or using others' passwords.
- j) Transmitting material, information or software in violation of any District policy or regulation, the school behavior code, and/or federal, state and local law or regulation.
- k) Revealing personal information about oneself or of other students including, but not limited to, disclosure of home address and/or telephone number.
- l) Assisting another student to violate District policy and/or regulation, or failing to report knowledge of any student violations of the District's policy and regulation on student use of computerized information resources.
- m) Use which violates any other aspect of Newfane Central School District policy and/or regulations, as well as local, state or federal laws or regulations.

Network accounts are to be used only by the authorized owner of the account. Any user of the DCS that accesses another network or computer resources shall be subject to that network's acceptable use policy.

(Continued)

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
AND ACCEPTABLE USE PROCEDURE FOR TECHNOLOGY (Cont'd.)**

If a student or a student's parent/guardian has a District network account, a non-District network account, or any other account or program which will enable direct or indirect access to a District computer, any access to the DCS in violation of District policy and/or regulation may result in student discipline. Indirect access to a District computer shall mean using a non-District computer or any other electronic media or communications, including by means of a student's own personal technology or electronic device on school grounds or at school events in a manner which results in the user gaining access to a District computer, including access to any and all information, records or other material contained or stored in a District computer.

Sanctions

- a) Violations may result in suspension and/or revocation of student access to the DCS as determined in accordance with appropriate due process procedures.
- b) Additional disciplinary action may be determined at the building level in accordance with existing practices and procedures regarding inappropriate language or behavior, as well as federal, state and local law.
- c) When applicable, law enforcement agencies may be involved.

NOTE: Refer also to Policy #8271 -- Internet Safety/Internet Content Filtering Policy
